- Ignition System: Pulsar ignition
- Special Features: Auto-rotatable stone, pulsar ignitor
- Burner Type: U-Type #304 S/S
- Weight: G.W/N.W:24.6kg/18.3kg

Something should be known before pizza oven cooking

Warning:

1

Be sure to operate the pizza stove on the desktop.

2

Place the propane cylinder on the ground next to the table, not less than 36 inches away from the pizza oven.

3

When installing gas cylinders, the outlet of the pressure reducing valve should not face the user.
